

# S.S.S. GREATEST OF ALL TONICS BECAUSE GREATEST OF ALL BLOOD PURIFIERS

Any system that needs a tonic needs also a blood purifier, for it is the weakened and impure condition of the circulation that is responsible for the run-down state of health. We have only to recognize the importance of pure, rich blood in preserving health, to realize the danger of a weakened or impure circulation. The great majority of persons are rapidly coming to understand the importance of preventing disease; they know that a poorly nourished system cannot resist germs and microbes, and that a tonic which purifies and enriches the blood will ward off a serious spell of illness later on.

That Spring is the most trying season on the health is a fact well known to every one. It is the time of year when our constitutions are required to stand the greatest strain, and unless the system receives the proper amount of blood nutriment the health is bound to be affected. The general bodily weakness, tired, worn-out feeling, fickle appetite, poor digestion, etc., come directly as a result of weak, watery blood.

If you need a tonic, you need a medicine that has real blood purifying properties. A great many so-called tonics are mere nerve stimulants, often producing instantaneous exhilarating effect, but acting with decided injury on the system. If your system is weak and run-down you can only tone it up by supplying an increased amount of blood nutriment, and this can come only through pure, rich blood. Any tonic which does not purify the blood is dangerous, because it leaves the impurities in the circulation to constantly prey upon the health.

S.S.S. is the greatest of all tonics because it is the greatest of all blood purifiers; and it is the one medicine you can rely on to supply the system with the best tonic effects and at the same time thoroughly purify the blood. The use of S.S.S. at this time may save you from a long spell of sickness, and it will certainly prepare you for the strain of the long hot summer. Many people have put off using a tonic until the system became so weakened it could not resist disease, and have paid for the neglect later on with a spell of fever, malaria, or some other debilitating sickness. S.S.S. is Nature's ideal tonic and blood purifier. It does not contain a particle of mineral in any form, nor does it contain any of the deleterious nerve stimulants that are used in so many medicines called tonics. S.S.S. tones up the stomach and digestion, rids one of the tired, worn-out feeling, improves the appetite and digestion, and in every way contributes to the upbuilding and strengthening of the entire system. S.S.S. is absolutely safe for persons of any age, and all who are in need of a tonic will find this medicine exactly suited to their needs.

## FEELS BETTER IN EVERY WAY

S.S.S. is a good medicine. I keep it in the house all the while. It is an excellent tonic to give strength to the system and tone to all the physical members. It gives appetite and energy and makes one feel better in every way. I have found it also an excellent blood purifier. For months I was troubled with an itching skin eruption on the face, and tried many specialists and many remedies to get a cure, but S.S.S. is the only medicine that seemed to relieve. I am now free of this eruption. I think a great deal of your medicine, believing it to be the best blood purifier and tonic known to the world today.

## NEWSBOYS GUESTS AT THE ORPHEUM

A joyous party of seven Morning Examiner newsboys gathered at the Orpheum theater last night, with faces beaming from a recent application of quantities of soap and water. Every week, the newsboy selling the largest number of copies of The Examiner is host to others who have been successful. Gerald Denkers was the fortunate "newsy," last week his sales of The Examiner aggregating 220 copies. His competitors pushed him hard for first place, one or two being within a few copies of this number.

The Warren and Miles Standish clubs are tied for second place, with seven victories and two defeats. The matches will end April 1 and in case of a tie the leading clubs will shoot an extra match to determine the winner.

## Florida Everglades Have Great Merit

Referring to an article recently appearing in a local evening paper concerning the land values of certain sections of Florida, which is purported to have originated in a small Michigan town, J. A. Rostan and A. A. Wenger, local agents for the Florida Everglades Land companies, yesterday labeled the story as published "boosh," and have the following to say concerning the land handled by the company they represent.

"Recent issue of a local evening paper published what they called a 'Statement' appearing in a certain Michigan paper, in which it is charged that men have been swindled in purchasing land in various parts of Florida, and that the person supplying the 'statement' in Michigan said he would sell a plot of land for \$100 for which he paid \$350 more than 25 years ago. The article goes on to say that the climate is malarial in its most deadly form and that the intense heat of summer, instead of allowing farmers to raise crops the year round, practically burns up vegetation. In answer to the 'boosh' statement published in the evening paper and the advice that Ogden people should carefully investigate before putting their money in Florida lands, we wish to say that to all who are interested we can supply, not information that we have been told about, and cannot prove, but signed statements from men who have purchased lands from our company and others who have no interest in the firm whatsoever, and that we court a thorough investigation of the proposition we are offering the public at any time.

"We have one letter in particular from Dr. Theo. E. Will, the editor of conservation, the official magazine of the American Forestry association, who spent from January 5 to 19, 1910, on a trip to Florida investigating the productivity, transportation facilities, marketing facilities and probable rapidly with which the drainage work already started by the state in the Everglades will be completed. His report shows that for productivity the land offered by the Everglades company, acre for acre, is unequalled, and he says, over his signature, that he believes the Everglades region will be the future and early home of an abundant population of thriving people, 'the best 'poor man's proposition' I have yet discovered.'"

"In contradiction to the report that the Everglades is malarial, we can prove that the region is the most misunderstood in the world. Where most people think the region is an oozy swamp, full of stagnant water, snakes and alligators, the truth is that the Everglades of Florida are a boundless plateau, twenty-one feet above sea level, covered with tall grass and resembling the prairies of Kansas and Nebraska. The statement to the effect that the lands are being sold as a swindling scheme is false, and can be so proven by countless signed letters from those who have been benefited and from visitors to the beautiful Everglades of Florida."

Messrs. Wenger and Rostan offer strongest personal backing of their claims.

wanted to complete the elimination of the speaker at one session.

"No, no," shouted at the same time the great Republican majority, who now saw the disfigurement of the insurgents in the movement when they were forced to consider the election of a speaker, and realized that in spite of their best efforts the house might be turned over to the Democratic minority.

At once the Democrats and regular Republicans joined forces for the humiliation of the insurgents.

A viva voce vote being put on the motion to adjourn there was but a faint response, while the negative vote was given in enormous volume.

Norris, still hoping to avoid the issue of electing another speaker, asked for a record vote on his motion to adjourn, and fourteen insurgents arose to support that demand.

Cheers and Jeers.

"Not a sufficient number," amid jeers that were directed toward the insurgents.

The question then reverted to the Burleson resolution, and the eyes and noses were demanded.

"The speaker surrenders the chair to the gentleman from New York," announced Mr. Cannon, looking toward Representative Payne. Amid loud applause, the speaker left the chair, and, turning to the Republican side of the house and nodding to his Republican colleagues with a smile, passed out into the marble lobby and went to his private office.

"After the adoption of the resolution, will it be improper to nominate Champ Clark of Missouri for the speakership?" inquired Mr. Clark of Florida.

## Think Twice Before You Sign An Ice Contract

It is time to make contracts for your summer supply of ice. Before doing so there are several important items to be considered—one is that you want ice NOT PART OF THE SUMMER, BUT

## You Want Ice All Summer Long

Another important item—even more important than the first—is, that ice you use MUST BE PURE.

One germ released in your refrigerator from contaminated melting ice, can bring disease to the entire family.

The ice which you use for the cooling of your food stuffs and which is used in summer drinks which you give to your children should be purity itself.

## Artificial Is the Only Absolutely Pure Ice

We not only guarantee to supply our customers with ice the year around—if they want it—but we will give them the only ice which is made of distilled water. Distilled water is even purer than the water which flows from mountain springs.
